

BUILD A BADGER BURROW!

Badgers live underground in burrows called setts. They can have multiple setts in each territory. Badger setts are often quite long and have different “rooms” where they can sleep, go to the bathroom, and even raise their young!

Activity: Build your very own badger burrow

- Gather a variety of blankets, pillows and cushions.
- Using what you gathered, arrange your burrow however you want. Get creative!
- Test it out! Remember: badgers like to stay low to the ground.
- Take a picture of your burrow and share it with us on Facebook!
