

ELEPHANT DISGUISE!

Did you know an elephant trunk contains over 100,000 muscles? That's more than humans have in their entire bodies! Elephant trunks are used to do many things, including eating, drinking, smelling, breathing, communicating, and even picking up objects. Elephants have an excellent sense of smell and can smell water from several miles away!

Activity: Make an elephant mask

- Print the mask template linked with this activity! Ask an adult to cut out the pieces for you.
- Color and decorate your mask however you'd like. Be creative!
- Glue the ears and trunk onto the mask.
- Ask a parent to take a picture of you wearing your new mask and share it with us on Facebook!
