

FISH LIKE A BEAR!

Brown bears that live in coastal areas often go into the water to hunt for salmon. They wait until the fish are close enough, then dive in, using their big paws and sharp claws to catch the fish. Do you think you could catch fish if you had paws?

Activity: Go fishing!

- Fill a water-tight container about halfway with water.
- Place some fish-shaped snacks inside (like Swedish Fish or Goldfish crackers).
- Put socks on your hands and use your “paws” to catch some fish!
- Take a picture of your paws and fish and share it with us on Facebook!
